#### Heroin Problem

URING the past week the China Mail has endeavoured to bring before the public, clearly and forcefully, the problem of drug trafficking and heroin addiction as it affects Hong. Coincidentally the annual report of the Commissioner of Police was published on Wednesday containing an illuminating chapter on the subject.

The China Mail series sought not to point the finger of recrimination, but to draw attention to what is rapidly doveloping into the Colony's biggest social problem. And in any way to convince readers, the Police Commissioner's statistical report on the subject should be sufficient to persuade the doubters; be doubters; SHOWDOWN

The figures merit recapitulation: during 1955 over 7,000 persons were charged with possession of heroin, a further 1,789 were before the Courts for smoking the drug, and yet another 2,000-odd were charged with possessing heroin pipes; all of which represents a startling increase in the known number of people having any sort of dealings with the pernicious drug. # SUSPECTED OF PLOTTING A COUP

Djakarta, May 10. Indonesian Military Command has arrested 21 officers suspected of plotting a coup in the capital and on West Java, informed sources said tonight.

The arrested officers were believed to have been attached to army headquarters, the Defence Ministry and the Third Military Command in Bandung. The sources said they were rounded up a week ago but added that the scope of the plot was unknown.

It was not clear whether the officers were planning a revolt against the government, against military headquarters or merely against the Third Command.

The sources said it was possible the plot was a sequel to the attempt by Colonel Zulkisi Lubis to take over the government with military columns last November. That attempt failed by a, few hours mostly beinck of coordination. Lubis was still at large.

The sources said the alleged ringleaders of the new plot is Lt-Col. Akil Prawiradiredja, former military commander of Djakaria and currentassigned Defence Ministry. He was being held at a military hospital, the

The Search For Bridey Murphy:

strangest films I have seen for a long time.

Based on fact, it tells the story of what came to light when an American housewife was hypnotised by a triend.
There was nothing abnormal about the woman except that she was a more then usually sonsitive subject to hypnosis and when her friend first started practising on her there was nothing to indicate that anything

America. Philosophers and men of science, at first sceptical, slowly began to accept i.s. authenticity. There was, however, no satisfactory conclusion reached, as the probing had to be discontinued due to the danger to the mind and health of the subject.

#### Concentration

In the film, the housewife is played by an actress whose work in the past has always shown a deep concentration on the part she was playing, Teresa Wright. She again brings this quality to her dual role as the American Ruth Simmons and the Irish Bridle Murphy and cannot think, of anyone who would have been more right for

"All I had to do to bring the band up to post-Bop fashion," says the Count, "was to put mink coats on the chords!" That the Count's comeback

has been successful, no one can deny. For two years now he has topped American "Downbeat" magazine, as band of the year For the second time in his life, he is being acclaimed as leader of the greatest large jazz outfit ever assembled. An idol of the teenagers throughout America in the late Thirties, William "Count" Basle is at the top again,

True, his music is not so different now from his post-war days. But he has incorporated many of the ideas of the modernists in jazz into his band. It is a blend of the best of two important stages in the evolution of jazz. It is rough, rugged, exciting music that he

plays. And his story makes fascinating reading. The times when he was so hard up he had take work in a cinema accompanying silent films....of the many hours he spent sitting a theatre pit listening to Waller play the organ his acclumation by hundreds of thousands of young men and women as his band triumphantly toured America ... how he disappeared from the musical scene almost completely.... and now his comeback with the greatest band he has ever fronted. #### A diver's dream come true!

"It has proved an Indispensable ac cessory for all diving . . . " D. Rebikoff, Vice-President of the Institute of Submarine Research, Cannet.

"The Roles Submariner has now been used on 14 descents, one of them being at a depth of 114 feet for 20 minutes, it has also been used in heavy brine and continues to work perfectly. "I am more than satisfied with its performance," Captain T. A. Hampton. AJ.C., P.R.I.S., Master C., Beitish Under-

water Centre, Dartmouth. "The claim that the watch is specially designed to overcome the peculiar problems of accurate timing while diving, particularly in respect of its external features, was exactly borne out by the tests. No limit to the tests was made by the manufacturers, these being set by the Club to equate to the most extreme
 diving conditions likely to be encountered." . . . From the report of the test carriedout by the British Sub-Aqua Club.

#### A watch that is waterproof down to 660 feet

As any piven knows, you tend to lose all sense of time underwater. Yet necurate and reliable timing is essential for proper decompression when returning to the surface. Lacking this, many divers have endangered their lives and a number of them have been crippled by "the bends."

Rolex, who specialize in providing accurate time under any circumstances, have made a wonderful watch called the Submariner—especially for deep divers and all those engaged in sea-going activities. The Rolex Submariner has a special Oyster case unconditionally guaranteed to resist the fantastic pressure at 660 feet underwater.

The Submariner has also a revolutionary "Time-Recorder" rim round the dial, calibrated from zero to 60. By turning this rim so that the zero mark points to the minute hand, before he starts, the diver can always read off the time clapsed. Even in the twilight prevalling at 150 feet, or when diving at night, he can read it because the dial and all three hands are extra-luminous.

Revolutionary time-recorder

Escatial for decompression The "Time-Recorder" rim solves the problem of exact timing of decompression stages. By presetting the zero mark to the correct number of minutes, the diver knows precisely when to continue upwards to the surface.

HILE the politicians argue about the rights and wrongs of exploding British H-bombs over the Pacific, (see below) the four men pictured here on the right are quietly preparing for the dangerous task of dropping the weapon.

They are the bomb-aimers of the four Valiant jet-planes which will take off from a crushed coral airstrip on Christmas Island to

carry out the mission. It will be their job to ensure that the bombs released from a height of about nine miles explode at precisely selected target points in the air three miles above the sea.

brought to public affection.

In particular he has become identified with Eigar's masterpiece - his setting of Cardinal Newman's poem The Dream of Gerontius.

Sargent's knowledge of Elgar has inspired him to produce two great recordings of The Dreamone before the war and a recent one on long-playing records (Columbia 33 CX 1247-8, 33-1/3 r.p.m.), both with the Huddersfield Choral Society and the Liverpool Philharmonic Orches-

The latest version is a worthy. tribute to Elgar. Sargent brings out every detail of The Dream's tremendous majesty and deep religious feeling.

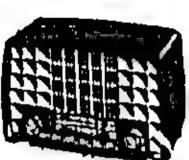

The centenary of Elgar's birth fails on June 2. To celebrate it Sargent will conduct a programmo of Elgar's music with an orchestra and a thousandstrong choir. Tears have been known

roll down Sargent's face as he conducts. That will be a night had been recorded - so there I conducted more new works than well they might.

SATURDAY SOCCER SPOT

By I. M. MacTAVISH

I am beginning to doubt the validity of the popular supposition that there is no election quite so high powered and quite so intriguingly intense as one held in America.

The cinema has been responsible of course for dramatising these events probably out of all proportion to actual happenings ..... but if some aspiring screen writer is searching for a new angle to the election theme, I suggest he might do worse than have a look at the background to the forthcoming Annual General Meeting of the Hongkong Football Association when the new office-bearers for next season will be voted into office.

### Reflections By "Time Out" The 1956/57 Senior Softball League

The Senior "A" Division gave fans plenty to shout about and the Pennant race was highlighted by bitterly fought battles between several . top contending teams.

As the end of the League loomed nearer and nearer, mathematically-minded partisans began to recall the number of games won and lost by their own particular favourites—and hopes in certain quarters came to fruition as the Blackhawks upset all calculations by an upset victory over the Pennant-bound Warriors and threw the race into a four-way tie before the Saints and Pandas-could ring down the curtain on the Senior "A" season.

ONE WEEK LATE The Senior League got off a poor start, one week late because of inclement weather, when on October 21 the Blackhawks downed the US Navy 28-0 in the season's first shut-out and the Pandas accounted for the ACG side 10-2. The results of games played off as the first round was in full swing were more or less as expected. It was still too early to surmise which team would nail down the flag but all indications then pointed to the Hongkong Pandas who mowed down all opposition until in a postponed first-round if fans will remember game, the Hawks knocked them down a peg in an

You have a fine head for business and are not one to be left behind when it comes to arranging the financial details in your own favourilit can't exactly be said that you are "sharp"—but you are definitely careful in protecting your own interests. It is likely that you will become quite wealthy at some period in your life, no matter how humble your beginning.

You are eager to better yourself and are always looking for a new opportunity whereby you may prove your worth. You believe in your own talent—and that, as everyone knows, is at least half of the battle in life. It is much easier to get others to believe in your talent when you yourself are assured and confident.

You have strong likes and dislikes and cannot be turned from your original tenets. You can, however, be reached through your affections and can be swayed, even against your own best judgment. This is unwise, for when one knows this weakness of yours, it is likely to be imposed upon. You are generous to a fault, kindly and sympathetic with those who have less than you have. Since you are basically an individualist, you may need to learn early in life to be a little more co-operative with others.

You members of the fair sex have a great deal of charm and are popular with your own and the opposite sex. Sometimes your moodiness is mistaken for a fickle change of mind on your part.
